

Ashes To Ashes

1. Strophe

**I fear the silence, I fear the darkness
I fear the tightness, the end of my way
There will be light at the end of the tunnel
You're gonna see it, that's all they can say**

Bridge

**So burn me down, Save me from the wooden box
Keep me away from the dirt
So burn me down, Scatter me at northern rocks
The bites of the bugs cannot hurt**

Chorus

**Ashes to ashes -dust to dust
Metal to Metal - rust to rust**

2. Strophe

**Cannot imagine what will be thereafter
After the heart stops with my final breath
Would be much easier if I knew it better
Killing the pain when I turn to death**

Bridge

**So burn me down, Save me from the wooden box
Keep me away from the dirt
So burn me down, Scatter me at northern rocks
The bites of the bugs cannot hurt**

Chorus

**Ashes to ashes -dust to dust
Metal to Metal - rust to rust**

Solo

Bridge

**So burn me down, Save me the from wooden box
Keep me away from the dirt

The bites of the bugs cannot hurt**
