

Run For Cover

1. Strophe

You told me you love me - need me by your side

There's a fear deep inside - that you can't hide

Bridge

I can't believe that - you won't stay

Pre Chorus

And it seems we're both - on different ways

Chorus

Run for cover - you better run to me

Run for cover - you made a fool out of me

2. Strophe

Maybe our dreams - become true some day

Maybe we're able - to find a way

Bridge

Time will tell - if there will be a chance

Pre Chorus

To find a way - for our romance

Chorus

Run for cover - you didn't run to me

Run for cover - you better set me free

Solo

Run for cover - you didn't run to me

Run for cover - you better set me free

Oh yeah, you better run to, you better run to

You better run to, you better run to me
